

- Notes**
1. All surfaces are built with food service grade non-absorbent material.
 2. All mobile kitchens conform to ESA, NFPA UL CSA and DDT standards.
 3. These plans are the property of Mobile Kitchens Canada. Any reproduction in whole or part must have written permission from Mobile Kitchens Canada.
 4. All wire is AWG #12 unless otherwise specified.
 5. All conduit is fastened to the walls with single hole galvanized pipe straps.
 6. This drawing shows the typical configuration of the electrical, and does not necessarily show the electrical installed in this specific unit. E&DE.
 7. All conduit diameter and wire gauge conforms to Canadian Electrical Code C22.1-06.
 8. All wire connections have marr connectors as well as tape to withstand normal and off-road (rough terrain) conditions.
